Gap Hill Wines produces only Verdelho, because we specialise in the variety that continues its buoyant affinity with our Stroud climate and soils – our “*terroir*”.

The “*boutique character*” of our Verdelho is important to us. We take pride in delivering a wine that is clean, dry, fresh, flavoursome and fruit driven, and that exhibits constant high quality with subtle vintage nuances.

We take much delight in enjoying those subtle vintage nuances. They come:

- from seasonally different vintage occurrences,
- from the creative initiative of our contract winemaker, and
- from the beguiling aging characteristics of the older vintages.

Hence our boast – consistently good wine, subtle vintage differences.
