Gap Hill Wines only produces Verdelho because we have chosen to specialise in the variety that is suited to our Stroud climate and soils – our "*terroir*".

The "*boutique character*" of our Verdelho is important to us. We take pride in delivering a wine of constant high quality that is clean, fresh flavoursome and fruit driven.

We also take much delight in enjoying the subtle differences that come from seasonal nuances experienced in the different vintages, and the beguiling aging characteristics of the older vintages.

Hence our boast – consistently good wine, subtle vintage differences.
